

# Ideas for self-assessment of your OER project

## Student-centered

### Performance metrics

- Standardized tests
- Pretest – post test
- Comparison of scores to a previous term
- Formative assessments and summative assessments throughout the term

### Student perceptions

- Survey (include specific questions in OMET, or use another means)
- Focus groups

## Instructor-centered

- Peer review
- Conference presentation and feedback collected from the participants
- Self-reflection

## Action plan

- Based on the results of the assessments, what will you do differently next time you use this OER?
